Dear Parents/Guardian of Students from Sec 2 Express and Normal Academic Classes

**Re: Project Work (JoLLIE) Presentations and Judging**

The Joy of Lifelong Learning in Innovation and Enterprise (JoLLIE) programme is the project work curriculum undergone by all Secondary 2 Express and Normal Academic students. The objective of JoLLIE in Yishun Secondary School is to provide students with opportunities to explore the inter-relationships and inter-connectedness across subjects. Through this experience, students will be able to:

- apply critical, reflective as well as ethical thinking skills,
- improve communication skills,
- foster collaborative learning skills and
- develop self-directed inquiry and life-long learning skills

One of the key elements of the project work is the presentation and evaluation session that will be held over the first two days of Term 3. In addition to the oral presentation, there is a Question-and-Answer session during which the group is expected to respond to questions raised by the audience. This will enable them to harness their speaking skills and the ability to defend their proposal. Students will be awarded a grade which will be reflected in the report book, for the presentation.

It is also our wish that the students will have an engaging and enriching afternoon sharing what they have learnt through the JoLLIE journey.

**Please note that participation in the presentation is compulsory for all students and the schedule is as follows:**

| S/N |                          | Venue                       | Date                       | Time                  |
